Brainstorm & Idea Prioritization:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Brainstorm & idea prioritization for Flavour Fusion

Use this brainstorming session to identify challenges faced in recipe blogging and explore how Generative AI can automate recipe content creation. The goal is to define a clear problem statement and select the most impactful solution idea for development.

10 minutes to prepare

- 15 min team discussion
- 5 min ideation

Before Team Discussion

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

- Brain gathering**
All team members discuss current issues to reduce shopping and content creation.
- Set the goal**
Research recipe blog writing is time-consuming and inefficient.
- Tool Selection**
 - Google AI
 - Google Bard for recipe AI generation

1 Define your problem statement

What problem are we solving?
How can we use Generative AI to automatically generate structured and customizable recipe blogs for users?

5 minutes

Manual recipe blogging requires significant time and effort.
